

It is of great concern to me and my family that our favorite radio station, K-Love, could be replaced by an LPFM broadcaster! We have been faithful K-Love listeners for over 5 years. When we have our radio on in the car, or at home (which on a daily basis)...we listen to K-Love 95% of the time. Our teenage daughter insists that we listen to K-Love every morning as we drive her to school. She listens to it while she is doing homework. When we travel, and lose the local K-Love signal, we search the radio waves until we find the nearest K-Love station. Our lives are inundated with worldly music, commercials, and media. K-Love is the one station that we can listen to and know that we will be inspired, uplifted and spiritually nourished. Yes, we have a local Christian radio station, but it has more talk time and less music time. We prefer the music. We know there K-Love has a large audience in Cincinnati because we hear our friends and church brothers and sisters talking about the station. It serves as a Christian influence in our city.

K-Love provides a public service to our community and the absence of that station would create an enormous gap in our city. K-Love not only offers Christian music, but it accepts the prayer concerns of it's listeners (we have been blessed by the prayers they have offered for our family members), and the on air employees provide light-hearted, Christian insights and motivations. I don't know what we would do without K-Love! Please do not allow a new LPFM broadcaster to take away our K-Love! We believe in the service the station and it's employees provide. We support them financially and prayerfully. If we lost K-Love, we would be losing dear friends.

Thank you for accepting my comments.

Sincerely,

Don Schneider
